MINOR MENTION.

—On Monday certificates of citizenship were issued in the district court to Michael Golwin, Francis Marr and Frank Gyax.

—The Easter offering at the Episcopal church Sunday was in excess of two hundred dollars. This sum will be applied on the church debt.

—F. G. Hamer of Kearney, F. L. Warrington of Lexington, and Frank Ransom of Omaha, are attending the present session of district court.

—In a few days Dr. Butt will be fully settled in his office in McDonald's Block, where he will be pleased to see all who need dental work.

—The lack of a good resident pitcher is the only drawback to the formation of rattling base ball team in North Platte this season. There are good players for all other positions.

—The Y. M. C. A. will reorganize its ball team in a short time. The games played last season resulted rather disastrously to the Y. M. C. A. boys, but they hope to strengthen the team this season.

—The windstorm yesterday was a severe one, though it was worse west of here. The telegraph wires between Lodge Pole and Sidney went down before the gale. There was some rain and snow both west and east of this point.

—Dr. Butt does crown and bridge work, also metal and vulcanite plates.

—The W. R. C. entertainment at the opera house this Tuesday evening should bring out a large audience, as there is much merit in the programme to be rendered the early part of the evening. The admission at the door is but ten cents.

—The sudden departure of the Shaffer boys Sunday night for California rather disarranged the programme for the minstrel show Thursday evening, but their places have been filled and the entertainment will be a winner from start to finish.

—N. B. Spurrier during the past five years has sold \$13,000 worth of produce from his 160 acre farm on the ditch. It didn't require a very large sock to contain Mr. S's wealth when he came to this county six years ago—now he is comfortably fixed. There are others like him along the ditch; which goes to show that farming by irrigation pays.

—The passage of the law providing for the division of counties by majority vote has already put new life into the agitators who have been harping on a division of this county. We do not believe, however, that the people of any section which might be set off for a new county care to bear the expense which necessarily follows the formation of a new county.

—A resident of this county who had received a donation of some fifty odd bushels of grain for seed, but who sold it instead of using it for the purpose intended, applied for a share of the seed purchased with the funds appropriated by the state. The committee that acted upon his application justly rejected it. It is to the credit of Logan county that she has but few such citizens.—Gandy Pioneer.

—The Bryant & Stratton business college of this city is desirous of obtaining some well written advertisements for promoting the interests of the school and to this end offer six-month, three-month and two month scholarships in the college to those furnishing the best ads. The space to be occupied by the ad will be six inches of a double column. A committee will be appointed to pass upon the merits of the compositions, and the three prize winners will be published in the North Platte Papers the week preceding June 1st. All compositions must be in the hands of the business manager of the college by June 1st.

—C. A. Diamond visited friends in this city Sunday.

—John W. Graham of Columbus, Ohio, is a North Platte visitor this week.

—Reserved seats for the minstrel entertainment are now on sale at Clinton's.

—Frank Sullivan, who is temporarily stationed at Grand Island, visited his parents in this city Sunday.

—One hundred and twenty-five land seekers passed through on train No. 1 last night bound for Colorado.

—Joe Fillion has ordered a tandem bicycle which he will rent out by the hour or day to those desiring to use it.

—Morris Cronen recovered his valuable bird dog Saturday, the animal being corralled by a party at Gothenburg.

—Thieves robbed the chicken house of Mrs. P. Manion Friday night, taking all the fowls with the exception of a setting hen.

Several letters from country correspondents were received too late for publication in this issue. They will appear in Friday's paper.

—Prof. Garlich's new orchestra will furnish the music at the gift presentation ball to be held at the opera house next Friday evening.

—The Cody houses in the southwest part of town have been improved in appearance at the hands of painters Hammond and Lemon.

—The weather this evening may be a little stormy but it should not deter any one from attending the entertainment at the opera house.

—The fair store uses liberal space in our columns to-day in order to acquaint the people with the big bargains they are offering these days.

—A private dance given at the opera house last evening by Phil Loneragan was fairly well attended, though there was a scarcity of ladies.

—Messrs. Searle, McSay and Tyler, of Ogalalla, went through on train No. 7 this morning having in tow about twenty-five land seekers.

—On last Friday evening Irene Miltonberger entertained a large party of her little friends, the occasion being her birthday anniversary.

—Amos Gantt, of Falls City, is the guest of his brother, T. Fulton Gantt, of this city. Mr. Gantt published a newspaper in this city many years ago.

—The wind yesterday rolled the tin roofing on the Wilson building on Front street and also did some little damage to the roof of the Hinman block on the same street.

—A class in shorthand will be organized at the business college, Saturday June 1, 1895. All persons interested will communicate with C. L. Brill, North Platte Neb. We also teach shorthand by mail.

—John Keliher mourns the loss of a lot of chickens which some ungodly fellow robbed him of one night the latter part of the week. Among the fowls stolen were several game chickens.

—An examination of the hotel registers this morning showed that about a dozen men from the eastern part of the state had arrived last night to look over our irrigated lands. More will be in to-night.

—The relief commission will vacate its present quarters the latter part of the week and remove to the Wood building on the corner of Sixth and Locust. C. M. Newton expects to occupy the room to be vacated by the commission.

—City marshal Huntington received a communication this morning from A. Contante, of Paxton, addressed to the "Chef de la Garde." As the Epistle is written in French the marshal is at a loss to know whether the writer wants a basket of Mumm's Extra Dry or a pneumatic bicycle.

—Under the new revised ordinances all dogs in the city will be taxed three dollars each after May 1st. According to C. L. Patterson, who is an authority on such matters, there are 333 dogs in town, and if the ordinance is rigidly enforced this tax will bring a revenue of \$999 to the city.

—The Lincoln county relief commission is spending its \$8,000 appropriation for seed grain largely among home merchants and Harrington & Tobin have sold and delivered them 3,000 bushels of seed corn and this enterprising firm is now negotiating with Logan and McPherson counties for a like amount.

—The funeral of Wm. Emerson was held from the Methodist church Saturday afternoon, Rev. Hardaway officiating. The remains were escorted to the grave by the Grand Army Post and a detachment of the Cody Guards. The Ladies of the G. A. R. placed a miniature silk flag on the left breast of the deceased comrade.

—Chas. A. Walker came down from Ogalalla on business this morning.

—A. C. Johnson and Frank Theilen, of Fremont, are spending a few days in town.

—Frank Murray received a new Eagle bicycle yesterday, and by-ers pronounce it a beauty.

—Do not forget that "you air axed tu a poverty partie by us folks of the G. A. R.," on Wednesday evening next, April 17th.

—The advance agent of the Pat Rooney Co., which is booked at the opera house for the 22d, will probably be here to-morrow.

—Will Snelling is exhibiting to his farmer friends samples of grain raised in the Big Horn basin of Wyoming by irrigation. The grain is certainly very fine.

—Commencing to-day the Boston Store will hold a special ten-day bargain sale at which prices will be slaughtered in a manner never before known in North Platte. Take advantage of this sale if you want to save money.

—M. C. Keith has had built two small houses on the running gears of wagons, which will be used by the workmen on his ranch and in the hay fields, thus doing away with canvas tents and the trouble of moving them.

—We have heard many complimentary remarks regarding the music rendered at the Catholic church Sunday. A bass solo by Frank Redmond was one of the chief features of the musical part of the services.

—Dr. Butt, the new dentist, has arrived and will soon have his office in shape to receive callers.

—Milton Doolittle and I. A. Fort were in attendance at the meeting of the state board of agriculture in Omaha to-day. Mr. Doolittle is a member of the board and Mr. Fort is there in the interest of the irrigation movement. We understand that the State Irrigation Association propose to exhibit the workings of the different irrigation systems at the next meeting of the fair in Omaha.

—Special offer, for thirty days only I will furnish Pastel portraits 16x20 in nice frame for only \$2.75. Satisfaction guaranteed.

WM. MUNSON, Agent.

—The Y. M. C. A. concert at the K. P. hall last evening was attended by an audience that filled nearly every seat. Part of the programme was excellently rendered, especially the instrumental numbers by Messrs. Hope, Garlichs, Olds, Morrell, Barber and the Y. M. C. A. glee club. The instruments of the latter consisted of two banjos, a guitar and three harmonicas, and the boys were recalled on both numbers. The net receipts were about \$25.

—The Bryant & Stratton business college, of this city, will within the next two weeks, issue eighteen diplomas to pupils who have been attending the school. The courses in which these pupils graduate are telegraphy, short-hand and book-keeping. This is an excellent record for the school, an evidence that the college is well managed. The names of those who will graduate are as follows: Minnie Deats, E. P. McGrew, Geo. Dowlen, Eddie Scharmann, E. Ware, Robert Armstrong, Alice Dillon, Otoe Weil, H. E. Irwin, Geo. Carter, Nellie Loneragan, John Keliher, V. E. Marsh, Anthony Stolle, E. C. Wolf, J. W. Dwyer, Fannie VonGoetz.

—For some reason or other more alkali is visible on the ground this spring than for years.

—District court convened Monday morning with Judge Sinclair, of Kearney, presiding. The first business was a decision of the court on the injunction case of Paxton & Hershey against the Farmers and Merchants' ditch, wherein the plaintiffs sought to restrain the defendant from building its ditch on the ground that the plaintiffs' ditch was sufficient to supply the territory sought to be watered by the ditch of the defendant. The evidence in the case had been submitted at the February term of court, and since that time the court had carefully considered the case, and as a result announced a dissolution of the injunction as his decision. The case will be taken to the supreme court, and the court ordered that the plaintiffs give a supersedeas bond in the sum of \$3,000. Just how long the appeal to the supreme court will delay matters depends upon the promptness with which the plaintiffs act. Mr. Ransom, the plaintiffs' attorney, declares that he is anxious that the case come up for hearing at the earliest possible date. If this is true, the matter will be finally settled, one way or the other, within ninety days. The decision in the district court is a victory for the Farmers and Merchants' ditch, and there are many who believe the supreme court will not reverse the decision of the lower court.

In the Spring the Young Man's Fancy turns—

sometimes, to thoughts of love; at other periods of sane moments, his thoughts are as to what will constitute the most appropriate present for his beet beloved. To him who is wandering in this labyrinth of doubt and uncertainty, Clinton, the Jeweler, by reason of his observation as well as occupation, is able to give many profitable pointers. Like all benefactors, he has a lively appreciation of the situation, and his counsel will be as sympathetically as well as disinterestedly given.
